

UBC Library Open Education Services

Many of these services are offered in collaboration with UBC's Centre for Teaching and Learning Technology.
For more information, or to book a consult or training session, e-mail open.ubc@ubc.ca

We will help you

- plan your project
- train your project team
- find resources

We will help you

- identify existing OER
- use evaluation criteria
- curate resources

We will help you

- create open texts
- create open journals
- train hired students

We will help you

- find a place to share
- assign an open license
- Optimize findability

Training Sessions Available

- Moving Your OER Project Forward
- Copyright and Licensing
- Discoverability and Sharing
- Finding Open Educational Resources
- Which Tool Should I Use?
- The Basics of Pressbooks

Strengthen Your OER Fund Application

As a part of the budgeting process, creating a project timeline will give you an idea of how long the project will take and where funds should be allocated.

The following is a guide to support the development of your project budget.

Open Text Publishing Projects

The following budget considerations are based on past text publishing projects using Pressbooks.

TIP: Use UBC Library Style Sheet and Attribution Tracker templates to save time!

Format and Design

20
hours

Example tasks:

- Develop a style sheet to establish format and design.
- Create a sample chapter using the style sheet.

Content Loading

15
mins per chapter

Example tasks:

- Load content into the platform.
- Organize the structure according to the style sheet.
- Add textboxes and tables.

Front/Back Matter

30
mins per page

Example tasks:

- Create the license page, about page, bibliography, etc.
- Add book descriptions.
- Fill out metadata.

Enhancing Content

1-2
hours per chapter

Example tasks:

- Find and add images (with attributions and Alt text for accessibility).
- Add multimedia content (e.g. videos, LaTeX and H5P).

Finding & Using Open Educational Resources

Searching for Resources

3-5
hours per subject area

Example tasks:

- Search repositories to find OER on identified subject areas.
- Find alternative openly licensed materials.

Licensing & Attribution

10
mins per item

Example tasks:

- Identify the licenses of already identified resources and creating the appropriate attribution.

Recommended Training

Getting training in these areas will ensure that you and your project team begin the project with all of the foundational knowledge that is required to create open educational resources.

- Moving Your OER Project Forward (1hr)
- Finding Open Educational Resources (1hr)
- Copyright and Licensing (1hr)
- Discoverability and Sharing (1hr)

Customized training for project teams is available.
